Videotape of interview with Don Rojas, former press secretary to murdered Grenadian Prime Minister Maurice Bishop

“Truth Crushed to the Earth Will Rise Again”

Grabación en video de una entrevista con Don Rojas, ex secretario de prensa del primer ministro Maurice Bishop de Grenada

Don Rojas (right), a key aide to slain Grenadian Prime Minister Maurice Bishop, with Bishop in 1982.

In the film, Rojas describes the events that took place between Oct. 12, 1983 — when Bishop was placed under house arrest by Deputy Prime Minister Bernard Coard — and Oct. 19, 1983 — when thousands of Grenadians freed Bishop and marched to

Fort Rupert. It was there that Bishop and other leaders of the revolution were murdered by troops loyal to Coard.

Rojas explains the accomplishments of the Grenada revolution for the working masses. He discusses developments inside

the New Jewel Movement, the ruling party, and Cuba's aid to the revolution.

He also urges supporters of the revolution to continue solidarity work, not only with the Grenadian people, but with the people of El Salvador and Nicaragua.
